## **Space Song**

## **Beach House**

It was late at night You'd held on tight From an empty sea A flash of light

It would take awhile
To make you smile
Somewhere in these eyes
I'm on your side

You wide eye'd girl You get it right

Fall back into place Fall back into place

Tender is the night For a broken heart Who will dry your eyes

What makes this fragile world go 'round? Were you ever lost Was she ever found? Somewhere in these eyes

Fall back into place Fall back into place
