

## Turtle Island

### Beach House

Down the hill I hoped that I'd find  
Something I could rest my hands on  
In the distant sun is setting  
Deer are jumping over hedges

By the dock of the pond Turtle Island  
I will wait for you there, creeping  
Silently, I can't keep you  
Right behind me  
All my days in the sun...

In the waters, trace her features,  
Did they scare you, hardened creatures  
In that murky, green perfection  
Did they warn you of dissection...  
How? What, why, when...?

By the dock of the pond Turtle Island  
I will wait for you there, creeping  
Silently, I can't keep you  
Right behind me  
All my days in the sun...

How I want Olive to know,  
That inside me she'll always grow.  
In all colors and prizes  
You will always  
Remain

By the dock of the pond Turtle Island  
By the dock of the pond Turtle Island  
I can't keep you  
Right behind me  
All my days in the sun...
