

# Sparks Fly Again

Beachwood Sparks

Days.dreaming across die

Back together with my friends  
So come on over started tonight  
Temperature LA on which goes fly  
And music is a home to return to you  
Sparks fly again for you  
Sun goes down  
All the world is sleeping under down  
There goes sound  
Singing of a love we thought we lost

The speed is ready now we go  
Don't spark it, real goes started  
When the parts become one hard to let it get it roll  
Remember when was a friend and once I knew  
Making the sparks of fly again for you  
Before we holla to back  
The stars shining the day  
(Gonna start it we go spark it)  
And in the night time let's get shine  
(Gonna spark it we go start it)  
And is.home you return to  
This sparks fly again for you, for you
