

The Sun Surrounds Me

Beachwood Sparks

the dark times gettin' a hold of me
and the sun don't shine anymore
and i can't hear the birds that sing,
well, if this is where our love has gone
then baby, we gotta talk about it
the song surrounds me
and all i'm singing
are the dark times
i'm telling you, lover
so we can see it through
still your memories of the days before
and all the love you had
comes raining down on you
dark water between our ships tonight
days comin' and goin' right out of my mind
while everywhere love's to be found
this is where the heart of it is,
i break it to you now
we're gonna turn it around
the sun surrounds me
and all i'm seeing
are the dark times
i'm telling you, brother
so we can see it through
