

# World Outside My Room

Beady Eye

I wake up smiling in my little Eden  
Pay no heed to the world outside  
Take my medication and hide

Whose been smoking cherry cola  
Somebody trying to live the dream  
I rattle as I reach to dust the screen

Out the door it might be snowing  
In my world it's always June  
I don't believe in the world outside my room

Television and dusty windows  
Fill my head with a happy tune  
I don't believe in the world outside my room  
I don't believe in the world outside my room

Life in here is a different tempo  
Virtually comatosed  
Sitting with the one I love the most

A sleeping dog deserves to lie  
She don't feel like a walk today  
She just wants to sleep and play

Out the door it might be snowing  
In my world it's always June  
I don't believe in the world outside my room

Television and dusty windows  
Fill my head with a happy tune  
I don't believe in the world outside my room  
I don't believe in the world outside my room

Tell me something I know already  
No surprises for me today  
I'm not ready, I've lost my way

Someday soon I'll get off my sofa  
Stop dreaming bout what might have been  
Until then I'll stay serene

Out the door it might be snowing  
In my world it's always June  
I don't believe in the world outside my room

Television and dusty windows  
Fill my head with a happy tune  
I don't believe in the world outside my room  
I don't believe in the world outside my room

I don't believe in the world outside my room  
I don't believe in the world outside my room

Outside my room  
Outside my room  
Outside my room

Outside my room
