

# I Can't Go On This Way

Beanie Sigel

Honor (honor), trust (trust), respect (respect)  
Devotion (devotion), friendship (friendship), loyalty  
(loyalty), karma (karma), team (team), us (us), roc  
(roc), silence (silence), the 'eagle, bang  
I can't go on this way  
With no union, and no benefits no dental plans  
I can't eat off no hundred grams  
I got cavities that need fillin'  
You can't feed a nigga peanut chews  
Now put your feet up in a nigga shoes  
A lack of green'll give a nigga blues  
A sip of purple make a nigga rue  
Nigga drunk person speak a sober tune  
{I can't do on this way} - (Fuck that, I can't do it man)  
We make these tips off dis gift that we cursed with  
But then my mind drift, am I defeatin' the purpose?  
Could you feel like shit when you miss yourself first? Shit  
But who gonna pay the bills? Supply the mills? No surplus  
My baby mama give me drama on the daily  
Like she, makin' it barely and my kids is eating rarely  
{I can't go on this way}  
(I'm stressed out gonna the what I can't do it)  
If you put puppies in the oven, do that make 'em biscuits?  
Put hungry dogs in the kitchen, will they eat the kittens  
Do you hear me or you listenin'? There's a big difference  
Do you catch the lines and the hooks or are you still fishin'?  
There's a couple questions that I need to be answered  
Like, is they backwoods and weed givin' me cancer  
{I can't do on this way}  
(I'm stressed out gonna do what I can't do it)  
My momma say I got a nerve stress  
Got her waking up in cold sweats  
I'm hard-headed and iron  
What make it worse my little brother behind me  
Blood pressure running like Harriet  
She can't handle it  
I got her screaming Lord Jesus like Mahalia  
Son I'm telling your please don't let me bury your  
{I can't go on this way}  
(I'm stressed man, I'm goin through it)  
I was taught trust in Allah but still tie up your camel  
Use your tongue as your sword and your books as your ammo  
But when them bullets start flying and you got pussies around you  
And who you rely on, got them niggas surround you? Shit  
And make me feel like young Tinner, from the start I was finished  
How niggas start with a finish and begin with a endin'  
{I can't go on this way}  
(I'm stressed out, I can't take it no more)  
I'm moving ass backwards with no forward progress  
Feel asthmatic like kept mills keep jogging Stagnant, running in place is tr  
agic  
My heart in the faith I don't practice  
I still pray, Allah will forgive me for my actions  
'cause I spit gangster think Muslim and act Kaffir  
{I can't go on this way}  
(I gotta still feel feed my youngness, so keep hugging)

I can't wait until the rain turn to sunshine  
'cause I hate to spend my life, my life, my life, my life  
Stuck in one time, Free pat-rol the block  
Get avoided by the government avoid the spent  
Can't wait till rain turn to sunshine  
'cause I hate to spend my life, my life, my life, my life  
Stuck in the box  
{I can't go on this way}  
(I feel you big homie, young gunner)

Straight from the ghetto to ghetto  
I'm from the youngsters be the ghettoist ones  
Tryna make just as much as we could  
Tryna make it but they gonna make it hard as much as they could  
That's why, that's why  
That's why I hate 'em man they crackers ain't nothing without paper  
They look at us it's nothing  
{I can't go on this way}  
(Came too far and I ain't goin backwoods for nothing)  
I ain't being distracted by nothing  
Midget-size to Dikembe, I ain't back up from nothing  
Ma I'm still stressing  
It ain't the kid it's the bills stressing, she hold it down on her own  
She hold me down at the crib, hold me down while I'm gone  
She hold me down as a kid, holds me down while I'm grown  
{I can't do on this way}  
(I choose not, refuse not, down on my own)  
Now off the streets, running wit the hottest label in the label in the indus  
try  
The hottest label got a nigga 'lotta enemies  
So now when I go in baseline  
A nice-size ratchet to throw in waistline  
I gotta make mine  
My bills ain't getting paid in, kids ain't situated  
{I can't go on this way}  
(You all better make a decision before us)  
(B. Sig) Cause the way that we living ain't all good  
Ran away wit them hating ass niggas don't like us  
Despite them, we gonna do it regardless  
But all dis commotion they causing I ain't it wit  
(We ain't wit it)  
They can get it all it take is a column  
My dogs'll be down if the rounds gotta unlit tho  
{I can't go on this way}  
(Someday gotta forget it tho  
Consequences for my sentence gotta forgive us tho)
