## Bear Hands

You like to hang out but I don't  
I don't leave the house 'cause I can't  
I've been taking these pills but still  
Got a couple of trails that I couldn't shake

Inside or out  
You're moving to find me  
Don't fear me now  
Put that behind me

If I can hear you  
Why can't I see you?  
If I can touch you  
Is that enough to  
Make my love real  
And one that won't fail  
You can trust me  
Because I have changed

Inside or out  
You're moving to find me  
Don't fear me now  
Put that behind me

If you believe me  
This will be easy  
You've heard enough now  
To know me  
I'm in love, yes  
With this feeling  
But I confess  
Feelings are fleeting

Inside or out  
You're moving to find me  
Don't fear me now  
Put that behind me

No right, no wrong  
At least I'm trying  
When I am gone  
Ain't no more crying

Part of what I've learned  
Living on my own

You like to hang out but I don't  
I don't leave the house 'cause I can't  
I've been taking these pills but still  
Got a couple of trails that I couldn't shake

Inside or out  
You're moving to find me  
Don't fear me now  
Put that behind me

No right, no wrong

At least I'm trying  
When I am gone  
Ain't no more crying
