

Give It Up

Bear Mountain

Weekend cruising, smoking you and me
I keep pursuing you down this dead end street
You feel like summer creeping in
Heat wave that burns our summer skin
We can make it if you stay another night
Wake up and breaking all our plans
Can't stop you slipping through my hands
Now we're fading like a picture in the light

You got the touch but you won't give it up
You keep me guessing, I'm almost out of luck
You've got the fire and I'm freezing up
You keep me guessing and I'm almost out of luck

One night you're giving it up, but one night is never enough
We're so close but we're so messed up
One night you're giving it up, but one night is never enough
We're so close but we're so messed up

Call me stupid, well I've been losing sleep
And I'm a fool if I waste another night in a lie I don't believe
You feel like summer creeping in
Heat wave that burns our summer skin

You got the touch but you won't give it up
You keep me guessing, I'm almost out of luck
You've got the fire and I'm freezing up
You keep me guessing and I'm almost out of luck

One night you're giving it up, but one night is never enough
We're so close but we're so messed up
One night you're giving it up, but one night is never enough
We're so close but we're so messed up

You got the touch but you won't give it up
You keep me guessing, I'm almost out of luck
You've got the fire and I'm freezing up
You keep me guessing and I'm almost out of luck
I'm almost out of luck
I'm almost out of luck

One night you're giving it up, but one night is never enough
We're so close but we're so messed up
I'm almost out of luck
One night you're giving it up, but one night is never enough
We're so close but we're so messed up
I'm almost out of luck
