

# Show Up To Fight

## Bear Mountain

A new day  
A sunrise  
Face your mistakes and hold them up to the light  
A slow climb  
Aiming so high  
You can't beat the king until you show up to fight

All the people too afraid to move  
Throw your hands up in the air – there's no excuse  
'Cause you're a fighter and you need to prove  
That you can beat them, beat, beat, beat them

We want a better life  
We're going to have to fight  
So light the dynamite  
It's your battle cry

If you show up to fight  
If you show up to fight

A long shot  
A landslide  
Jump from the edge and let the angels decide  
A slow burn  
Burning so bright  
You can't beat the king until you show up to fight

Bells are ringing and they're calling you  
Time is ticking and you've got to make your move  
They feed you fiction while they call it truth  
But you can beat them, beat, beat, beat them

We want a better life  
We're going to have to fight  
So light the dynamite  
It's your battle cry

If you show up to fight  
If you show up to fight

Never let them take control again  
We'll build a better world  
If you show up to fight

We'll see the end in sight  
If you show up to fight  
If you show up to fight

If you show up to fight  
If you show up to fight

We'll see the end in sight  
If you show up to fight
