

Show Up To Fight

Bear Mountain

A new day
A sunrise
Face your mistakes and hold them up to the light
A slow climb
Aiming so high
You can't beat the king until you show up to fight

All the people too afraid to move
Throw your hands up in the air – there's no excuse
'Cause you're a fighter and you need to prove
That you can beat them, beat, beat, beat them

We want a better life
We're going to have to fight
So light the dynamite
It's your battle cry

If you show up to fight
If you show up to fight

A long shot
A landslide
Jump from the edge and let the angels decide
A slow burn
Burning so bright
You can't beat the king until you show up to fight

Bells are ringing and they're calling you
Time is ticking and you've got to make your move
They feed you fiction while they call it truth
But you can beat them, beat, beat, beat them

We want a better life
We're going to have to fight
So light the dynamite
It's your battle cry

If you show up to fight
If you show up to fight

Never let them take control again
We'll build a better world
If you show up to fight

We'll see the end in sight
If you show up to fight
If you show up to fight

If you show up to fight
If you show up to fight

We'll see the end in sight
If you show up to fight
