

## Campfire

**Bear Vs. Shark**

The countryside is being eaten by the very structure that we le  
an on  
love letters for bonfires and campfire songs for city children  
nowhere to run  
distance ourselves by the balanced crops of thought  
till the field  
no where to run  
you were never there  
the oceanside is being torn down  
by the countless drops of blackness feeding filtration  
for the domestication of diseases  
you'll lose your balance on this rope  
broncos with cavalry bringing me home
