

Harmony

Beardfish

Your satin skin
Has been rubbed in fame
What is your name?
What is your name?

You're more than fine
Oh, you're bigger than life
What is your name?
Your real name?

Please tell me!
Harmony!
Just between you and me!

Oh, I took a hard hit today
Oh, and the laws makes my noise!
it makes my noice!
And I shiver in this cold, cold hearth!

You smile like someone I once knew
It's that look in your eyes,
In your eyes.
Oh, Harmony!
Its like a door to a vast unknown
And no one can ever realize

Oh, wont you tell me?
Harmony!
Just between you and me
Oh, I took a real hard hit today
It was so hard, now I'm hurting baby!

Oh, and the laws makes my noise!

And I shiver in this cold, cold hearth
And I shiver, I shiver, and Im hurting and I..

Oh, baby
I took a hard hit today

And when I turn my head
When I turn my head to look for you

I can't see you anywhere
I can't see you anywhere

I can't see you anywhere

I can't see you
I can't see you anywhere

Oh, and the laws
The laws makes my noice!
And the laws that you gave me!

Is bringing me Love!

And I shiver in my!
And I shiver in my cold, cold hearth
I shiver in my cold..
I shiver in my cold hearth

I shiver in my cold, cold hearth
I shiver in my cold, cold hearth
I shiver in my cold, cold hearth
I shiver in my cold, cold hearth
I shiver in my cold, cold hearth
I shiver in my cold, cold hearth
I shiver in my cold hearth
I shiver in my cold, cold..
