

Bad Listener

Beartooth

You say my vision's not a vision at all
There's no degree in rock and roll
Say it's a waste of time
Say I'll never get a real shot
I'll be bangin' my head 'til my brain rots
I'll be bangin' my head 'til my brain rots
I'll be bangin' my head 'til my brain rots

I feel the energy from my head to my feet
I said I got a passion and bury me
I'm no Time to slap you in the face with reality

We're bent the same by the powers of We're so bound to perfection but I will
not Maybe I'm [?], but I'd rather believe
I'm just breaking the surface and you will never stop me
