

# Keep Your American Dream

Beartooth

Go ahead and keep it  
Go ahead and keep your American dream

Can you go the distance  
I don't wanna see  
Can you make a future without maturity  
I'm doing fine as far as I can see  
So go ahead and keep your American dream

I wanna live my life to the fullest  
Make the most out of being young  
And when I'm laying down on my death bed  
I'll be proud of every story told

Go ahead and keep it  
Go ahead and keep your American dream

Have you had the same mentality  
Since you we're just a kid  
Can you ever face reality  
Growing up so quick

It's either hard at work or hardly working at all

I don't wanna purchase what you're selling  
Please will you accept my written apology  
Listen close to the words I say  
When I'm old and I'm deaf you'll still be hearing me

I have one life to live  
And I want true happiness

Go ahead and keep it  
Go ahead and keep your American dream

Have you had the same mentality  
Since you we're just a kid  
Can you ever face reality  
Growing up so quick

It's either hard at work or hardly working at all

Go ahead and keep it  
Go ahead and keep your American dream

Go ahead and keep it  
Have you had the same mentality  
Since you we're just a kid  
Can you ever face reality  
Growing up so quick

It's either hard at work or hardly working at all

Go ahead and keep it  
I will never need it  
Go ahead and keep your American dream
