

# Rock Is Dead

Beartooth

The only way I could feel okay  
Turn it up, let the music save me  
If I need to ease my pain  
When everyone says my world is changing  
I'd rather be deaf, I'd rather be dead than bored out of my mind  
I'd rather be deaf, I'd rather be dead than bored out of my mind

If I make sound, it better be loud  
Till my voice is blowing out  
What if one day everything changed  
Will these words have any use to me  
I didn't make it here to let anyone drag me down  
If I make sound, it better be loud  
If rock and roll's dead you can kill me right now

So you don't understand a word I say  
Either way it's probably worth listening  
If this whole thing's fading away  
You better know it's going down swinging  
I'd rather be deaf, I'd rather be dead than bored out of my mind  
I'd rather be deaf, I'd rather be dead than bored out of my mind

If I make sound, it better be loud  
Till my voice is blowing out  
What if one day everything changed  
Will these words have any use to me  
I didn't make it here to let anyone drag me down  
If I make sound, it better be loud  
If rock and roll's dead you can kill me right now

If rock and roll's dead you can kill me right now  
If rock and roll's dead you can kill me right now  
If rock and roll's dead you can kill me right now  
Turn this riff up!

If I make sound, it better be loud  
Till my voice is blowing out  
What if one day everything changed  
Will these words have any use to me  
I didn't make it here to let anyone drag me down  
If I make sound, it better be loud  
If rock and roll's dead you can kill me right now
