I can't breathe in
With hands on my neck
I scream back
The grip that holds on
The reason
I'm trapped in my head
Defeated

I never felt this
The voice in my face screams violent
The grip that holds on
The reason
I'm trapped in my head
Defeated

I never felt so close
To giving up my hope
Should I hide it
Should I fight it
Should I roll over in time
You never know
You never know until you know, know, know
You never know until you know, know, know
You never know until you know, know, know

I can't breathe in
With hands on my neck
I scream back
The grip that holds on
The reason
I'm trapped in my head
Defeated

I never felt so close
To giving up my hope
Should I hide it
Should I fight it
Should I roll over in time
You never know
You never know until you know, know, know
You never know until you know, know, know
You never know until you know, know, know

I never felt this
The voice in my face screams violent
The grip that holds on
The reason
I'm trapped in my head
Defeated
You never know until you know

I never felt so close
To giving up my hope
Should I hide it
Should I fight it
Should I roll over in time
You never know

You never know until you know, know, know You never know until you know, know, know You never know until you know
