

# Song for the Man

**Beastie Boys**

What makes you feel  
And why you gotta be  
Like you got the right  
To look her up and down  
What makes this world  
So sick and evil

I know you don't know

What makes you feel  
Like you got (Miracle) Whip appeal  
Who made you the judge an jury  
Ain't you never heard of privacy  
What makes this world  
So sick and evil

You figure it out
