

Follow Me

BEAT CRUSADERS

Follow me

Baby, I won't let you leave if you believe in me
And I'll always set you free from all those yesteryears
But you don't know how much
I got believe in you

I was staring at your shoulder shivering
In such a coldest summer breeze
Meanwhile I wonder why we're here
Look for the line between lover and friends
We'll be twisting ourselves again

I was standing at the corner on the street
Watching the wheels are turning free
Waiting to back up on my feet
Reading a line between night and day
I'll be twisting myself again

Follow me

(Follow me)

Baby, I won't let you leave if you believe in me
(Believe in me...)
And I'll always set you free from all those yesteryears
(Ooohhhh)
But you don't know how much
I got believe in you
