

Lemon Head

BEAT CRUSADERS

I don't think there will be squall
I don't think there will be wrong
Sometimes you say

Everyday's a bad day
Everything is quite well
Maybe rainy Sunday
Fine day, Tuesday
Everyday's a black day
No one's gotta blackmail

I don't know how the weather is fine
Walking in the sun
Everyone smiles

Don't worry
Let's got out to the place we're getting high
Nobody
Gets me stop otherwise you, honey
Let's got out to the place we're getting high

I don't understand why you hide
I don't understand why you fear
I don't understand why you sigh
You're shining and gleaming
Everybody wants you right away

Don't worry
Let's go out to the place we're getting high
Don't hurry
Let's go out to the place we're getting high
Nobody
Gets me stop otherwise you, honey
Gets me stop otherwise you, baby
Let's go out to the place we say good-bye
