## Let It Go

## **BEAT CRUSADERS**

Here it comes Here we're standing All alone

Nothing lasts Nothing's happening All along

The destination's calling
(But) I still wait another chance
The destiny takes hands
But I don't know
How long

Let it go!

Desperations will get you blow

Destinies that you'll never know

Destitutions lead you to goals

Destinations you've got to go
