

I Let Him Get To Me

Beat Happening

My friends ask me why I look so down
How come they haven't seen me around town

Cause I let him get to me but he don't let me get to him
I let him get to me, he don't let me get to him
I let him get to me but he don't let me get to him
I let him get to me, he don't let me get to him

I see him walking around so cool
And I feel like such a fool

'Cause I let him get to me but he don't let me get to him
I let him get to me, he don't let me get to him
I let him get to me but he don't let me get to him
I let him get to me, he don't let me get to him

I think about why I feel this way
I think about it most every day
I try to change the way I feel about you
but when I try I see that I'm not being true

'Cause I let him get to me but he don't let me get to him
I let him get to me but he don't let me get to him
I let him get to me but he don't let me get to him
I let him get to me he don't let me get to him
