## **Teenage Caveman**

## **Beat Happening**

Guitar starts spinning, rock and roll starts winning We rise to the top, we're the cream of the crop We make with the haircuts straight out of the past We blast first, we blast last

Teenage caveman, rock wood skin and bones It's the cry of the wild, we cry alone We cry alone (6x)

Got a strand of barbed wire twisted around my throat Teenage caveman, blind and without any hope Let's get primitive right now, down with the rocks and the dirt Let's bang our heads girl, trade spit 'til it hurts

Teenage caveman, rock wood skin and bone It's the cry of the wild, we cry alone We cry alone (7x)

Woke to the sound of an angel, rolling bones to the door I can hear the flowers bloom, the gust of blood from the roar

Teenage caveman, rock wood skin and bones It's the cry of the wild, we cry alone We cry alone (7x) Alone
