

Step Inside Love / Los Paranoias

The Beatles

Step inside love and stay
Step inside love
Step inside love
Step inside love
I want you to stay

You look tired, love
Let me turn down the light
Come in out of the cold
Rest your head on my shoulder
And kiss me tonight
We are together
Now and forever, come my way

Step inside love and stay
Step inside love
Step inside love
Step inside love
I want you to stay
