

Atomic Love

Beatsteaks

this is atomic love

just a minute ago
i was watching the show
now we're shaking the floor
making trouble for sure
and we're screaming "the cure"

this is atomic love

and she knows what the part is
kiss in a shot and get started
we're turning into an easy target
for something outrageous

i was just ready to know
already out of control
and i better get up for...
