

Fix It

Beatsteaks

what's coming up, don't worry about
i breathe in, you breathe out
can't get enough, can't give it up
i care a lot, you'll never stop
to act up, scream and shout
give me what you got and spit it out
stir me up don't keep it quiet
and let me know we're alive

see the world, it smiles back
while you're setting the trap
can you give it some more
as you reach for the shore
to sell what is left and
if we can't fix this,
then we can't fix anything

you cover up you keep it quiet
dressed to kill you'll survive
can't give it up can't get enough
you won't stop, you are savages
see what you got and
deny it to the public

see the world, it smiles back
while you're setting the trap
can you give it some more
as you reach for the shore
to sell what is left and
if we can't fix this,
then we can't fix anything

your mind is burning an invisible fire
can't get enough
but you will never get higher
