

I never was

Beatsteaks

I never was an astronaut
I never was a plumber
I never was a Beastie Boy
and it doesn't really matter

If there's a resurrection
I don't need to be saved
And if we meet in heaven
I'd love to see the place

Blame it on biology
What am I supposed to be?

I never was an acrobat
I'll always be a dancer
The questions rain like cannonballs
Wish I had all the answers

Here it comes
let it grow

Blame it on biology
What am I supposed to be?

Here it comes
let it grow
I never was an astronaut
I wish I was a drummer

Blame it on biology
What am I supposed to be?
