

## Mietzi's Song

Beatsteaks

You showed me colours I 'd never seen there was so much we used  
to share you took me places where I'd never been I close my ey  
es again and think of you I hear your voice with every passing  
day I see my sister's laughing face I think about the things yo  
u used to say I close my eyes again and think of you I see myse  
lf in you in all those little things you do took you in bed at  
night knowin' that everything's alright time slips away so fast  
sunny skies get overcast I know I can't be there beside you I  
can't be there to guide you I can't be there to hold you now.
