

I Got It All

Beautiful Creatures

Everybody's got somethin' to hide
There's a needle sticking in their eyes

I know where I'll be
You'll see me in the end

I got it all
I got blood on my hands
I got it all
I got the world on command
I got it all
I crossed the line in the sand
I got it..
I got it all

Watch your back, like it ain't no joke
Watch your life, goin' up in smoke

What's your's is mine
What's mine is mine
And I'll take it every time

I got it all
I got blood on my hands
I got it all
I got the world on command
I got it all
I crossed that line in the sand
I got it..
I got cancers, I got scars
Like politicians, and superstars

I got it all
I got blood on my hands
I got it all
I got the world on command
I got it all
I crossed the line in the sand
I got it.. ooh, yeah

I got it all
I got people that I left behind
I got it all
I see things that'll make you blind
I got it all
I got stories that could damage lives
I got it..
I got it all
