

Kick Out

Beautiful Creatures

Blood stain, nice guys
Loose lipped, cross eyed
Love spits the bull's eye
Now, whip that bitch to the other side

Kick out, kick out, kick out, kick out, kick out
Break out, break out, break out, break out, break out
Take a long look at yourself
And leave the rest behind

Tight fist, diamond rings
Slammed down on the green
Love bites over me
Now pick that baby
When she does that thing

Kick out, kick out, kick out, kick out, kick out
Break out, break out, break out, break out, break out
Take a long look at yourself
And leave the rest behind

I'm gonna make everything my own
I'm gonna steal your heart and make it whole
I'm gonna take everything I want
And leave the rest behind
Like this..

Kick out, kick out, kick out, kick out, kick out
Break out, break out, break out, break out, break out
Take a long look at yourself
And leave the rest behind

I'm gonna make everything my own
I'm gonna steal your heart
And make it whole
I'm gonna take everything I want
And leave the rest behind
