

Right Away

Bebe & Cece Winans

What we need is urgency
I know you'll all agree
We need love and honesty
To help in times like these

Our young facing tragedies
In ways you can't believe
Finally can we see
We must demand integrity

Now there will always be problems
And I know (it's the way it is)
And you know (just the way it is)
Just need love to solve them
Right away, I need love right away

Right away, right away
Need love, right away, right away
Said we need you
Right away, right away
Need love, right away, right away
Said we need you
Say we need love

Fancy free, liberty
Has it caused values to leave
I live for me, you live for you
They say do what you want to do

Now there will always be problems
And I know (it's the way it is)
And you know (just the way it is)
Just need love to solve them
Right away

Right away, right away
Need love, right away, right away
Said we need you
Right away, right away
Need love, right away, right away
Said we need you
Say we need you
We need love, we need love
Come on we need you

Love is just the answer
Cause love carries no strife
Now's the time to give love
Learn to love each other
Right now and the rest of our life

See there will always be problems
And I know (it's the way it is)
And you know (just the way it is)
Just need love to solve them
Right away

Right away, right away
Need love, right away, right away
Said if we're gonna make it
Right away, right away
Said if we're gonna make it
Need love, right away, right away

Right away, right away
Let's say it, we need love
Right away, right away
Right away, right away
If we're gonna change the world
Right away, right away
