Next to You

Bebel Gilberto

So winter's come
And summer's fall
Time is just a whisper
In a waterfall

Forever now
Forever now
Every road I wander
Brings me back here

Next to you

Be still my love

And close your eyes

Don't say a word

No how's or whys Everything I need, within me All the dreams I've dreamed, are true And all the starry skies, inside me When I'm next to you
