

# Big Blue Sky

Bebo Norman

I don't have a lot to give  
This broken world can make it hard to live  
I got nothing left to say  
My empty words have simply gone away

But this big blue sky  
Shows me all that I have got  
And you're by my side  
To be everything I'm not  
The angels sigh  
I breathe deep the breath of God

I cannot find another sky  
My thoughts are heavy and they cloud my eyes  
But when I'm searching for the sun  
You rise up quickly with your kingdom come

I'm coming alive  
Nothing is good apart from you  
I'm coming alive with you

I may not have a lot to give  
This broken world can make it hard to live  
I may have nothing left to say  
But I know that you will never go away
