

# Everything I Hoped You'd Be

Bebo Norman

Take me to the desert  
You will be the water  
I will drink forever to fill my soul

Lead me through the fire of darkness and desire  
You will be my shelter, You will be my shelter  
I'll find you there, I'll find you there

It's here that I call out  
It's here that I fall down  
It's here that I found out  
That you are everything I hoped You'd be

Take me to the river  
Lead me to the healer  
Let it wash me over, oh my soul

Take me to the mountain  
Lead me to the altar  
We will build together  
And I will remember  
I found you there, I found you there....

It's here that I call out  
It's here that I fall down  
It's here that I find out  
That you are everything  
It's here that I call out  
It's here that I fall down  
It's here that I find out  
That you are everything I hoped You'd be

I hoped You'd be the sun that always shines  
I hoped You'd be the everlasting life

It's here that I call out  
It's here that I fall down  
It's here that I found out  
That you are everything  
It's here that I call out  
It's here that I fall down  
It's here that I found out  
That you are everything I hoped You'd be

I hoped You'd be  
I hoped You'd be  
I hoped You'd be
