

Remember Us

Bebo Norman

God of goodness, God of grace
See the tears upon our face
We are restless for the day that you come for us all

But our place is here right now
Still this place is breaking down
And some days we dont know how
We will make it at all

When our hearts are breaking
And our darkest hour is upon us
When the storm is raging
God of heaven, please remember us

When the light of day is gone
And our suffering is long
we lift up our needful song
to the Maker of all

When our hearts are breaking
And our darkest hour is upon us
When the storm is raging
God of heaven, please remember us
Please remember us
Glory, we cry Glory
All for your Glory, we cling to you

When our hearts are breaking
And our darkest hour is upon us
When the storm is raging
God of heaven, please remember us

When our hearts are breaking
And our darkest hour is upon us
When the storm is raging
God of heaven, please remember us
