

The Only Hope

Bebo Norman

I want to run, it's my nature to run
And I want to fight, it's my nature to fight
And I want to live, but you tell me to die
I have resolved that I'm much better off
In your hands than mine

I'm begging you to hold on tight
Begging you to hold on tight
Begging you to take my life from me

I want a crumb, but you are a feast
I want a song, but you are a symphony
I want a star, but your a galaxy

And I have resolved that I'm much better off
In what you have for me
I'm begging you to hold on tight
Begging you to hold on tight
Begging you to take my life from me

So tell me you won't let go
Tell me you won't let go
Cause you are the only hope for me

Take my life from me, It's the only hope for me
Take my life from me, It's the only hope for me
And I'll never want for more
I'll never want for more

I'm begging you to hold on tight
Begging you to hold on tight
Begging you to take my life from me
So tell me you won't let go
Tell me you won't let go
Cause your the only hope for me
You're the only hope for me
Yeah, your the only hope for me
