

## Guilty Pleasure

Becca

Look, look me up and down  
You would be forgiven if I had a taste  
You, see everything you're missing now  
Oh I'd hate to see this moment go to waste

I don't really care if you're not single  
We could use each other just a little  
No one has to know if we're together  
Come on let me be your guilty pleasure

Hide, hide every rule we break  
Just close your eyes we could be done in record time  
No, no is not a word you'll say  
I know you won't resist the secret kiss of mine

I don't really care if you're not single  
We could use each other just a little  
No one has to know if we're together  
Come on let me be your guilty pleasure  
Everything could change in just a minute  
But there's nobody else in when we're in it  
We don't have to talk about forever  
Come on let me be your guilty pleasure

Nothing's better than the tension killing me  
Who says that this is not, what it's supposed to be

I don't really care if you're not single  
We could use each other just a little  
No one has to know if we're together  
Come on let me be your guilty pleasure  
Everything could change in just a minute  
But there's nobody else when we're in it  
We don't have to talk about forever  
Come on let me be your guilty pleasure
