

# In Between

Becca

You come over Don't talk  
Turn the T.V. on, off  
Disconnected Unaffected  
Better take the call

Showed you pictures of my home town  
A pin could drop from miles down  
What's the use in trying to be a girlfriend  
When we know just what we are

There's nothin' in common  
Except the bed we lay on

I won't be caught between something and nothing  
When you know that nothing is for free  
Cause in the end it's me who pulls the covers  
And it's empty in between

You're a habit I can't break  
Disaster to eliminate  
What part of no do I not understand  
When you're not good for me

Cause I know we will never  
Be some kind of forever

I won't be caught between something and nothing  
When you know that nothing is for free  
Cause in the end it's me who pulls the covers  
And it's empty in between  
I'm the girl who needs it all or nothing  
How did we become a one night stand  
Hanging on a thread just isn't something  
That I want in the end

You come over yeah it's over  
Now we know just what we are

I won't be caught between something and nothing  
When you know that nothing is for free  
Cause in the end it's me who pulls the covers  
And it's empty in between  
I'm the girl who needs it all or nothing  
How did we become a one night stand  
Hanging on a thread just isn't something  
That I want in the end
