

Love Or Leave

Becca

I've given you a second chance
One too many times again
No wonder then say we won't last

Though no one thinks we're meant to be
I'm still not sure what to believe
I just keep hanging on cause you're all I dream of

Wake up
I'm asleep in love again
So what
Maybe I'm not ready to begin the end

Do I love or leave you now
Will we ever figure out we're wrong
I wanna find the kind of love that's right where it belongs
Do I love or leave you now
Is our timing running out of fate
I wanna find the kind of love I know is here to stay

I keep on hiding from the truth
Because we're good when it's on mute
And that's the part I'm scared to lose

Maybe I have to crash and burn
Before I'm ever gonna learn
I'm wondering which way this loves gonna take us

I'm not
Seeing clearly anymore
Can't stop
Cuz I wanna believe you're worth fighting for

Do I love or leave you now
Will we ever figure out we're wrong
I wanna find the kind of love that's right where it belongs
Do I love or leave you now
Is our timing running out of fate
I wanna find the kind of love I know is here to stay

I can't bear to think I've wasted all this time
Being with someone whose poison
I am hoping that you won't be on the list of my mistakes
Is it time to break away?

Do I love or leave you now
Will we ever figure out we're wrong
I wanna find the kind of love that's right where it belongs
Do I love or leave you now
Is our timing running out of fate
I wanna find the kind of love I know is here to stay
