

Only When I Dance

Becca

Downtown, kicking round
Aint no way to go get me down
We are all dancing at the biking lounge
Smoking spinsters, swinging sounds
All right, I'm a little uptight
Gonna need my shot tonight
One drink and I'll be alright
That's me shining in the party lights

But you don't know me
And you don't own me

Its only when I dance
That you can see the real me
It's only when I dance
The lights go down and shine on me
Its only when I dance

Downtown til the lights go down
Smoking hidden with the real get down
We're living wild and free
Never thought it's the life for me
Just moving to a whole new beat
Got the world under my feet
You warm me with your naked eyes
Your desire's my paradise

And you don't know me
And you don't own me

Its only when I dance
That you can see the real me
It's only when I dance
The lights go down and shine on me
Its only when I dance
Its only when I dance

Its only when I dance
That you can see the real me
Its only when I dance
The lights go down and shine on me
Its only when I dance
Its only when I dance
Its only when I dance
The lights go down and shine on me
Its only when I dance
Its only when I dance
Its only when I dance
