

Beautiful Way

Beck

Searchlights on the skyline
Just looking for a friend
Who's gonna love my baby
When she's gone around the bend?

Egyptian bells are ringing
When it's her birthday
Sweet nothin', I'm talking about you
There's a hurricane blowing your way

Ooh such a beautiful way
To break your heart
Ooh such a beautiful way
To break my heart
There's someone calling your name
It's driving you insane

You were wearing that stained raincoat
And your umbrella was a tangled mess
You were washed up on the glittering shoals
Looking for another crime to confess

You bribed yourself out of a place in the sun
But you had some change to spare
So you said you wanna spend it on me
And shook the blues out of your hair

Ooh such a beautiful way
To break your heart
Ooh such a beautiful way
To break my heart
There's someone calling your name
You're gonna miss that chain

Ooh such a beautiful way
To break your heart
Ooh such a beautiful way
To break my heart
There's someone calling your name
It's driving you insane
