

## Don't Let It Go

Beck

You better save yourself  
From something you can't see  
Follow it where it goes  
Follow it back to me  
I'll keep it here

Don't let it go  
Don't let it go  
Don't let it go  
Don't let it go away  
You don't have to let it go away

These are some faults we found  
Hollowed out from the years  
Don't let them wear you out  
Don't let them turn your mind inside out

Don't let it go  
Don't let it go away  
Don't let it go  
Don't let it go away  
You don't have to let it go away

In the crossfire there's a story  
And how it ends, I do not know

Don't let it go  
(Don't you see how far it's gone away?)  
Don't let it go away  
Don't let it go  
(Don't you see how far it's gone away?)  
Don't let it go away  
Don't let it go  
(Don't you see how far it's gone away?)  
Don't let it go away  
Don't let it go  
(Don't you see how far it's gone away?)  
Don't let it go away  
You don't have to let it go away
