

# I Won't Be Long

Beck

The time is almost over  
People are evolving  
so come a little closer  
I try now I can't fight it  
being invective  
I'm counting down the minutes  
From an hourglass full of ice

Chorus:

I won't be long,  
I won't be long,  
I won't be long,  
I won't be long,  
I won't be long, long, long  
I won't be long, long, long

Can't you hear the catchy station  
Coming from another car  
Broken recognition  
No one has a clue where we are  
Cause things are getting silly  
We're covered in a secret  
Buried in voluá¹-tuary  
Cause there's nowhere else to keep it

Chorus:

I won't be long,  
I won't be long,  
I won't be long,  
I won't be long,  
I won't be long, long, long  
I won't be long, long, long

I won't be long,  
I won't be long,  
I won't be long, long, long  
I won't be long, long, long  
I won't be long, long, long  
I won't be long, long, long

Oh so silently we go  
Oh so silently we go  
Oh so silently we go
