

One of These Days

Beck

One of these days
I hope it's soon
I'll see you smiling
The way you do
Walkin' on splinters
Somewhere unknown
It's getting better
That much I know

One of these days
One of these days
I'm gonna love you all my life
One of these days
One of these days
I'm gonna let the world blow by

Cardboard faces
With nowhere to look
One in a million
That's how long it took
Up on the bridge
Nowhere to go
Empty and cold
Burnin' a light bulb

One of these days
One of these days
I'm gonna love you all my life
One of these days
One of these days
I'm gonna let the world blow by

One of these days
One of these days
One of these days
One of these days
One of these days
One of these days
One of these days
One of these days
One of these days
One of these days
