Rental Car

Hey now girl what's the matter with me We're on a back road something to see Straight as a razor kickin the dust Diggin thru ditches and fallin to rust

Takin me far Far as a rental car can go

Hey now girl at the end of the road Down where the reaper is walkin alone Singing a death knell Clappin along At the end of the night There's a road we'll be on

Takin me far, Far as a rental car can go
