

Christmas Love

Beckah Shae

Goodwill and generosity
Oh, good times at all the gatherings
Whoa, oh, oh, oh, oh
Friends and all the festivities
Oh family, you finally get to see

This is the greatest time of the year
When everybody gets to give someone
A gift of tidings and good cheer
Or maybe something better like a little loving letter

See it all comes down to love, not just a season, it's the reason for love
The greatest gift ever to be given to us all was this love
So let's rejoice and make a choice this Christmas time to choose love
Oh, it all comes down to love

Carolers stopping by to sing
Hot cocoa by the fire crackling
Oh, yet there must be someone out there wondering
About somebody else who's lost and lonely

This is the greatest time of the year
For everyone who gives a little something
More than just good tidings or cheer
'Cause remember in December Christmas
Seems like just a day without love

It's all about love, not just a season, it's the reason for love
The greatest gift ever to be given to us all was this love
So let's rejoice and make a choice this Christmas time to choose love
Oh, it all comes down to love

Oh, it's all about love, not just a season, it's the reason for love
The greatest gift ever to be given to us all was this love
So let's rejoice and make a choice this Christmas time to choose love
Oh, it all comes down to love
