

# Your Presence

Beckah Shae

Here we are again  
So glad your best friend  
I've got so much on my mind  
But then you already know

Cause when you whisper I find wisdom beyond  
My fears they all die  
At your feet love has won

Holy one  
In your presence  
I'm undone  
In your presence  
Every one of my questions  
Fade away  
In your presence

Here we are again  
I'm looking forward to the end  
But there's so much left here to do  
I need your strength, I don't wanna loose

But when you whisper I find wisdom beyond  
My fears they die all die  
At your feet love has won

Holy one  
In your presence  
I'm undone  
In your presence  
Every one of my questions  
Fade away  
In your presence

Whenever I run  
You are here  
Whenever I am still  
Yea you are here  
Never a moment without you  
Your always here  
And I will finish well  
Cause you are here

Holy one  
In your presence  
I'm undone  
In your presence  
Every one of my questions  
Fade away  
In your presence
