

Play It Again

Becky G

Watch me take it up
Then I break it down
I don't play sports
But it's a touchdown
I don't blend in
I'm a black sheep
And even then ha
They still follow me

I rock three stripes
can go and check my closet
N-never share the guap
can go and check my wallet
I'm a comet, out of this planet
Sitting on the throne and these haters can't stand it

DJ play my song on the radio
Lift me up when I'm feeling low
Drop the beat and play it again
Play it again

DJ, spin it back if you're feeling me
The 808 track is all I need
Drop the beat and play it again
Play it again

Now watch me do my thing
Do my thing out on the stage
I become an animal
Go and put me in a cage
I'm a beast, I'm a beast
Why they let me off my leash?
No you can't tame me
In this jungle of concrete

I'm a creature, I ain't lying
Not a cheetah, I'm a lioness
They saying that I'm the best
And I ain't drop the album yet
I got them waiting, anticipating
They losing patience
My music is vaccination for all my loyal patients

DJ play my song on the radio
Lift me up when I'm feeling low
Drop the beat and play it again
Play it again

DJ, spin it back if you're feeling me
The 808 track is all I need
Drop the beat and play it again
Play it again

Ride to the moon moon light
Let the boom boom play
Turn it up 'til you feel that base
Rock, never gon gon stop

Say whatcha wanna wanna say
We finna keep going anyway

DJ play my song on the radio
Lift me up when I'm feeling low
Drop the beat and play it again
Play it again

DJ, spin it back if you're feeling me
The 808 track is all I need
Drop the beat and play it again
Play it again

DJ play my song on the radio
Lift me up when I'm feeling low
Drop the beat and play it again
Play it again

DJ spin it back if you feeling me
The 808 track is all I need
Drop the beat and play it again
Play it again
