

# Artificial Immortality

## Becoming the Archetype

Technology will conquer, Biology will fall  
Machines provide the means for the chosen few  
To rise up and be "immortal"  
Discard the body to elevate the intellect

Remove the head, remove the soul, implant the artificial  
Remove the head, remove the soul, dehumanize... NO!

Shake off the chains  
The constraints of your mortality  
This new evolution puts "perfection" within our grasp  
Discard the body to elevate the intellect

Remove the head, remove the soul, implant the artificial  
Remove the head, remove the soul, dehumanize... NO!

I am not a mechanism  
I am part of the resistance  
I am an organism  
An animal, a creature, I am A BEAST! (2x)
