

Waste My Time

BEDlight for blueEYES

Did you think that it would end up this way?
single shadow cast in a leading role
I got my suitcase by the door
packed with, secrets you'll never know

We lay down
you said "boy don't ever let me go"
now i'm writing
all the things we couldn't show

Trying not to waste my time tonight
honey, all the wrong things they feel so right
I should've said I love you
but I just said I understand

Trying hard to keep my mind occupied
on the road for at least six weeks this time
but satisfaction is the death of desire
baby, I'm not satisfied

Well I came home
with the wood stacked in my arms
and found out
you found a new way to keep warm

Trying not to waste my time tonight
Honey, all the wrong things they feel so right
I should've said I love you
but I just said I understand

Whoa-ho, ooh
whoa, ho, oh oh

Trying not to waste my time tonight
Honey, all the wrong things they feel so right
I should've said i love you
but i just said i understand
