

## Without You (We Are Everything)

BEDlight for blueEYES

Did you think we'd let this slide  
We tried to leave the past behind, but here we go again.  
Keep on writing songs about us  
(you could never be one of us)  
You can run, but you can't hide from your lies.  
Without, without you, we are everything you said we couldn't be  
.  
Without, without you, we're everything you'll never be.  
We knew something wasn't right the first time  
we saw that look on your eyes, but there you go again  
Thinking everybody owes you  
(It's your ego that controls you).  
You're whole persona is convicted, you're a lie.  
Without, without you, we are everything you said we couldn't be  
.  
Without, without you, we're everything you'll never be.  
And if we see you on the street you better look down at your feet.  
You need to understand that this is not a game.  
You'll feel the pain.  
Without, without you, we are everything you said we couldn't be  
.  
Without, without you, we're everything you'll never be.
